Theory of Action

IF educators.....

- Identify the skills that challenged students the most,
- Use high quality student-centered instruction to teach these skills,
- Act and adjust quickly, based on evidence, in order to see real change in learning and teaching,
- Build the knowledge and skills to do the work of improvement,
- Are provided guidance and support from the Office of Catholic Schools, and
- Collaborate by sharing learning as it unfolds,

THEN.....this learning will build collective skill which will improve teaching, and student achievement will
